

To whom it may concern,

I am writing to highly recommend Matcha Desoutter for any position she may be applying for. I had the pleasure of working with her at sennder, where she served as a valuable technical lead not only for our platform team but to the values stream teams as well.

Matcha is an exceptional individual who possesses a unique combination of knowledge, kindness, patience and ability to articulate technical ideas. She has an unparalleled work ethic and is always willing to go above and beyond to ensure that the job is done right.

She is a team player who is always willing to lend a hand to her colleagues. Her positive attitude makes her an excellent addition to any team, and her ability to work well under pressure is truly impressive.

She was a key player in most of the incidents the teams had, she was very fast in assessing the situation and had the ability to pinpoint with ease problems and solutions which got teams unstuck.

She has the ability to start from scratch a project and deliver it, due to her work ethics and due to her inner drive. She used her skills efficiently to help teams strategise around new architectural concepts or even help them with hands on support for proving fast an MVP.

She is passionate about technology and beyond, driven, self-confident and proactively helpful so I know she will continue to find success in her future endeavors.

I have no doubt that Matcha will excel in any position she takes on. I recommend her without reservation.

Please feel free to contact me at gheorghina.gligor@sennder.com with any further questions.
Thank you.

Gheorghina Gligor
Principal Software Engineer / Head of Architecture
